Very fun and clever game, have fun beating the game in many ways, You can set traps, lure enemies, light your ammo on fire, all while navigating a unique level each time you play.

Definitely worth it, I only just started playing and i'm hooked.. This game is great! I bought it on a whim to just be an early adopter for once. It's presented very well, the mechanics are great, it's challenging and replayable.

The sort of campaign mode that has robot NPCs with voice acting is fairly short as of now, but very enjoyable. I like the characters a lot and the maps are fun.

The arcade mode has more levels than campaign (I'm on level 27 so far). It consists of speedruns with different constraints. One type of level has hourglasses that you have to pick up in order to gain the fuel you need to reach the goal. These take place in cityscapes and building interiors. Then there are levels with a single supply of fuel where you just have to reach the end without dying. These take place in space in sort of abstract structures.

Both of these modes have leaderboards and have obstacles like bombs, lasers, and black holes. There is also a free flight mode, but it says "Coming Soon" when you click on it.

I think there is enough content in this game already to justify this price for early access. It's really fun. Here's hoping the devs stay dedicated to it and continue to add content and features.. LOVE THIS!!! Vr Sculpting program - In Early access but amazing. 3d modeling has never been more fun!

[frequent updates and bug fixes. Having played Pixel Puzzles Ultimate before this one and having done the Undead pack there. I was frustrated by this one. Being pretty big on 100%ing games where I can, when I launched this one I was immediately annoyed by the title mini-game, mainly because of the two extremely grindy achievements tied to them. One was to play the menu mini-game and survive for a full 60 minutes \(which is not hard, more on that shortly\) while the other was to play the same mini-game and get 5000 zombie kills. While I appreciate someone trying to spice up a game that is just a simple puzzle completer, it was extremely frustrating needing to sit through and do these two items to 100% the game.](#)

[As I said above, the mini-game is not hard. You get a gun and grenades. Both are unlimited ammo, but the gun takes 3 bullets to kill a single zombie while the grenade will kill on contact or after an amount of time has gone by, and, of course, hits an area. As the grenade is spammable, there is no reason to use the gun. In order to get the two listed achievements, you simple sit in the middle of the map and spam grenades in every direction. It's mind numbing and provides absolutely no challenge. Additionally, the time and kill achievements are not linked. What I mean by this is after 60 minutes of playing \(and unlocking the attached achievement\), you are just barely halfway completed on the kills. Yup. Additionally, there is no consistency/known method of unlocking all 5000 kills. Some report that it keeps track throughout different playthroughs, others reported it kept track of kills between different attempts as long as you didn't close the game at all, and still others claimed that it had to be done in a single attempt. I proved the latter personally, as I had completed 500 kills while just messing about the first time, and still had to get all 5000 when I took a serious go at it. It was designed solely to have people play longer.](#)

[Finally, there is a mechanic within the puzzles themselves in which you control a character that has to repel zombies sporadically while you complete the puzzle. Again, it is not hard to do, but it was an annoying distraction while doing the puzzles that could easily be turned off in the menus, which is exactly what I did.](#)

[I am fairly positive I received this game as a bonus when I purchased the puzzle pack for Pixel Puzzles Ultimate, so I was happy that I did not go out of my way to purchase it. However, if you find this one in your Steam library and care about your achievement percentage \(I get that doesn't apply to everyone\), skip it. You've already done the puzzles and it isn't worth your time.](#)

Pros:

[- Received as a bonus when purchasing a puzzle pack for Pixel Puzzles Ultimate](#)

---

- [Puzzle art is amusing](#)

[Cons:](#)

- [Adds nothing worth your time that you didn't already complete in Ultimate](#)

- [Achievements to 100% are mind-numbingly grindy](#)

- [Menu mini-game does not record kills correctly. House of Velez is an astoundingly well made game that takes you back to the olden days of horror. The cut scenes are well made and the game is overall demented. Loved every second of it.. This is one of the best RPG's I have ever played. Old school feel but very refined. Great story. Fun gameplay. Lots of options and choices with leveling up and skill upgrades.](#)

[Most fun I've had with an RPG in a long time. Highly recommended!](#)

I am not sure what is the matter. I bought the season pass for assassin creed odyssey. Assassin creed 3 remaster came along. Installed it, but when started playing there was so much lag, had to decrease the graph, the lag was bit gone but, still was not fun at all. Even though my laptop has all the system requirement. So I couldn't understand why, lag. So I played odyssey again to check if it is now happening with all the games that I have bought over time, but thankfully no, I was afraid of virus. There was no such thing. There is something wrong with the game itself, It has some serious issues. I have Uninstalled it..

Really fun game playing alone, can't wait to play with others im sure it would be hilarious! The controls are odd but that just adds to the hilarity!. I have seen this airport in real life and this looks just like the real thing, 10V10, would reccomend. This is better than any other scenery I have seen before and the pictures don't do it justice.. I'm watching for this project from the start and I was very hyped at first. But this game is in very early version still. 90% discount was very pleased for me so I decided to support the developer. But...

Tried to start Walking tour twice. It loaded at first for about 10 minutes but freezed after it and it's hard to close the game eating all PC resources (Far Cry 5 plays on ultra). Refund for now and waiting till it will be at least half of playable.. I was really excited to play Infliction after playing the demo which was TERRIFYING and really fun. Hits on some heavy themes in a good way, obvious how much care and attention has gone into this. All the individual items are really crafted, and the ambience and environment are chilling. Immediately gets you into the mood and had my heart racing throughout. Highly recommend!. I enjoyed this game very much. Very simple gameplay and extremely deep historical touch. True grand strategy game. Very recommended!. The puzzles are even more difficult and not in the fun way. Had to look up how to beat the bible puzzle and repaly the lock puzzle multipuil times to get out without assistance. The story seems to be progressing well enough. Ready for the next episode.
